

AT & M SAFARIS

about time and memories

WHAT WE ARE ALL ABOUT

This safari company is more than just a business; it is a labour of love and a testament to the beauty of the African continent and its natural wonders. From the outset, it was clear that our passion for the wilderness and the transformative power of a safari experience were the driving force behind our endeavor.

B EHIND *the company name*

The company's name was inspired by Daniel's late tracker and is a touching tribute to his passion and the memories they shared together. Our dedication to creating unforgettable experiences for our guests is evident, as we understand the importance of reconnecting with loved ones and immersing oneself in the natural world. Through About Time & Memories, families, couples, and individuals alike are able to explore their relationships and expand their minds in ways that only a safari adventure can provide.

AFRICA

on foot

Walking safaris in Africa are a unique and exhilarating way to experience the continent's natural beauty and abundant wildlife. Unlike traditional game drives, which allow you to view animals from the safety of a vehicle, walking safaris put you right in amongst the wild beauty.

This gives you a much more intimate and immersive experience, allowing one to experience some of the smaller things and the natural beauty of some of the oldest landscapes in the world.

Walking safaris are typically conducted in remote areas that are inaccessible by vehicle. This means that you'll have the opportunity to be on foot without the presence of other humans and only the wilderness. You'll also have the chance to explore the African bush on foot, which is a true privilege.

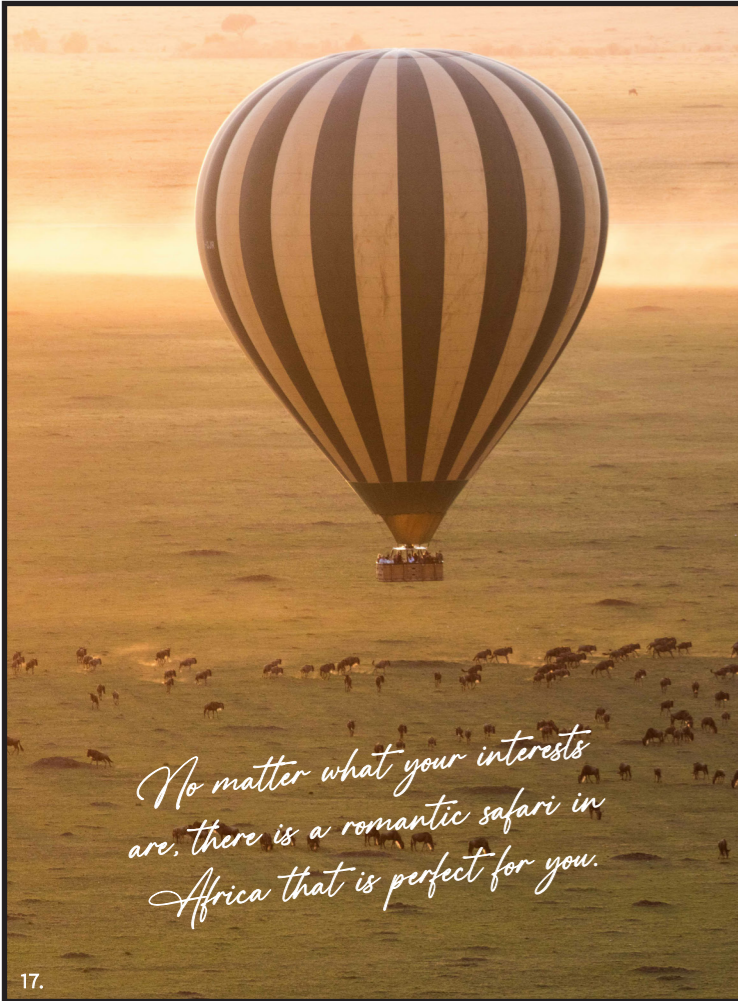

PRIMITIVE

Walking Safari

If you're looking for an adrenaline rush, you can also opt for a primitive walking safari. These safaris typically last for five days, and you'll only have the supplies that you can carry on your back. This means that you'll need to be in good physical condition, but it's also an incredibly rewarding experience.

At night, you'll camp in wild river beds, where you can experience the beauty of the African night sky. You will harvest your water from the wild rivers that flow. You will hear the nocturnal beat of the African bush at night. Experienced guides will be ever present to ensure your safety and high quality experience.

Walking safaris are an amazing way to experience Africa in its purest form. If you're looking for an adventure that you'll never forget, then a walking safari is definitely the way to go.

No matter what your interests are, there is a romantic safari in Africa that is perfect for you.
